American Rescue Plan Act

Notice of Funding Availability For Drug Overdose and Prevention Programs Grant Guidelines

BACKGROUND AND GENERAL INFORMATION

On March 11, 2021, President Biden signed the American Rescue Plan Act of 2021 (ARPA) into law. The \$1.9 trillion Fiscal Recovery Funds package is intended to combat the COVID-19 pandemic, including public health and economic impacts. The City of Scranton has received a total of \$68.746M to respond to the COVID-19 public health emergency and its economic impacts.

The mission of the city's specific ARPA program is to give people access to resources, rebuild the infrastructure systems that impact their everyday lives, and foster real equitable wealth generation that targets the needs of Scranton residents. This mission statement is also accompanied by six (6) guiding principles:

1. **Recovery:** Use funds to equitably guide residents, businesses, nonprofits & local government out of the economic downturn and onto a path of financial recovery
2. **Response:** Enhance city health & emergency response capabilities
3. **Alignment:** Integrate ARPA Funds with ACT 47 Exit Plan Goals, long-term financial and tax strategies, & comprehensive economic development planning
4. **Sustainability:** Avoid one-time items and programs that incur unsustainable operational, maintenance, or other long-term legacy costs
5. **Leverage:** Tackle large infrastructure needs for a safer, healthier city
6. **Transparency:** Accountability, communication, collaboration

Scranton City Council approved ARPA funding to be made available as grants to community organizations, nonprofits, and small business that have faced economic hardship resulting from or exacerbated by the public health emergency. Below is a summary of the program, as well as eligibility requirements and documentation required for submission. Applicants may apply for multiple programs but must submit a separate application for each.

DEFINITION OF ECONOMICALLY DISADVANTAGED

In accordance with the City's mission to offer equitable recovery and investment resources to the community, grant applications for subrecipient awards will be reviewed and prioritized based on the target populations the beneficiary or its program will serve. Higher prioritization and consideration will be given to those applications that serve the economically disadvantaged populations within the city. According to a recent median household income study by race/ethnicity, it was found that the median income for Black or African American and Hispanic or Latino households is lower than the White and

Asian households located in the city. Programs and applicants that intend to serve these lower income communities will be given more consideration for funding than those that do not.

Additionally, the City's programs are intended to provide resources and aid to both Impacted and Disproportionately Impacted communities. According to the Treasury's guidance, a moderate-income household at or below 65% of the Area Median Income for the County, or below 300% of the Federal Poverty Guidelines is considered to be Impacted. A low-income household at or below 40% of the Area Median Income for the County, or below 185% of the Federal Poverty Guidelines or a household located within a Qualified Census Tract, or receives services provided by Tribal governments, is considered to be Disproportionately Impacted. Programs and applicants that intend to serve Disproportionately Impacted communities will be given more consideration for funding.

DDAP Drug Overdose Prevention:

In accordance with the Scranton ARPA mission, the city is seeking applications for Overdose Prevention Programs. In general, applicants will be required to 1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and 2) design a program that responds to that impact. Responses to the impact will be required to be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted. Applicants may also apply for funding to support or expand existing programs that fall within this category. For example, funding may be applied for and used to support providers of substance abuse treatment and prevention services.. Funding may be issued as grants or subrecipient awards and utilized for prevention, outpatient treatment, crisis care, diversion programs, outreach to individuals not yet engaged in treatment, harm reduction and long-term recovery support, services for pregnant women or infants born with neonatal abstinence syndrome, support for equitable access to reduce disparities in access to high-quality treatment, peer support groups, costs for residence in supportive housing or recovery housing, and 988 National Suicide Prevention Lifeline or other hotline services, expansion of access to evidence-based services for opioid use disorder prevention, treatment, harm reduction, and recovery, and drug overdose treatment facilities and equipment. Multiparater programs will be given priority. Funding applications may also be submitted for eligible capital expenditures. To be eligible, capital expenditures must be detailed in the application and must directly respond to the pandemic and be proportional to the demonstrated impacted. They must also serve or provide benefits to City residents and support the drug overdose treatment or prevention program(s). The City's mission is to use ARPA funding as a catalyst for long-term sustainable programs. Awards are available up to \$50,000, or to an amount of need that may be clearly demonstrated by applicants.

APPLICATION REVIEW PROCESS

City staff will review grant applications for completeness and eligibility. Applicants may be asked to revise proposals or provide additional information.

Complete and eligible applications will then be reviewed by a review panel.

APPLICATION REVIEW CRITERIA

Award allocations will be based on the total number of applicants, completeness of applications, expense eligibility, organizational need, community benefit, and organizational operating budget size. No cash match is required.

Review panel members may consider the following factors in their evaluation:

- Organization is a qualifying and eligible entity
- Impact of COVID-19 is clear and demonstrated and program designed to respond the impact is direct and reasonably proportional
- Impact of other Federal, County, or City assistance received, alone or in comparison to other applicants
- Fiscal and administrative capacity to administer the funding in compliance with requirements
- Grant budget is provided, reasonable, and aligns with eligible expenses
- Alignment of the request with the City's mission and vision
- Demonstrated partnership with other community entities
- Impact the funding request will have on under-served groups and local community

- Program delivery includes that included communication in multiple languages, appropriate care around cultural sensitivities, and targeted outreach to underrepresented, underserved, or historically marginalized populations
- If the applicant has received, or intends to receive, alternate funding from other federal or state sources for the same request
- If the applicant has previously administered or been awarded federal funds
- Applicants' quality of key performance indicators submitted to monitor the programs success
- Anticipated long-term impact the funding will create within the community
- Applicants identification of outcomes and impacts that will remain after the programs initial implementation phase, if funded
- Applicants' readiness to fund and capacity for implementation
- Organization and program viability – will the program continue to be sustainable without continued funding support from the City of Scranton
- Ability to fully expend funds by September 30, 2026
- Other factors as deemed appropriate by the panel members
