March 2026

- Keyser Valley stormwater improvement contracts 1 and 2 are released for bidding.
- Tree removal is completed for part of the upcoming Keyser Valley stormwater projects.

May 2026

- On May 28, the City of Scranton joined a groundbreaking at John G. Whittier Elementary School, 700 Orchard St., for the second playground transformation project funded in part by ARPA. Similar to the previous project at John F. Kennedy Elementary students engaged in a six-week curriculum to design and plan their own school playground.

- The City of Scranton proposed a $6.4 million contract with RLE Enterprises for a critical stormwater management project in Keyser Valley. Council unanimously approves the contract at the June 2 meeting.

June 2026

- Officials held a June 1 ribbon cutting for the Cedar Avenue streetscape project. The estimated $700,000 project included new sidewalks, curbs, signage, native trees, and more to improve driver and pedestrian safety and the quality of the neighborhood. It's the first of several streetscape projects to be completed.
- The Nay Aug Park zero-entry pool officially opened on June 24, complete with a ribbon cutting. The $4.6 million project was possible through $3 million in ARPA funding, a $1 million LSA grant, and City funds.

July 2026

- The City's 2026 small business facade grant program opens on July 8. The program is inspired, but not funded this year, by the ARPA facade program that preceded it.

August 2026

- The Capouse Avenue Park and Splash Pad opens on August 13. The project was funded entirely by ARPA, with approximately $1.3 million allocated for the splash pad and an additional $506,000 for playground equipment and other features.

October 2026

- The City of Scranton celebrated the completion of the Lackawanna Avenue portion of the downtown streetscape project near the Radisson Lackawanna Station Hotel. The $2.2 million project included $1.65 million in ARPA funding.
- On Oct. 19, the City began the next part of the downtown streetscape transformation by placing stop signs at 13 intersections where traffic signals are being studied for removal and tapering some streets to one lane of traffic.
- On Oct. 20, the City of Scranton joined a ribbon cutting for the second schoolyard transformation project – this time at John G. Whittier Elementary.
- Officials also celebrated the completion of a $1.8 million stormwater project in the Minooka section, largely focused on the area of Kane Street and Pittston Avenue.

EXPENDITURES

The City of Scranton filed its nineteenth quarterly report for the period from July 1, 2026 to September 30, 2026, before the October 31, 2026, deadline. A copy of that report is included as an appendix.

The next required quarterly report is due April 30, 2027, and will represent the completion of the City's ARPA program, including all consulting finished after the Dec. 31, 2026, spending deadline.

Enclosed in this document is an interim report outlining expenditures to date.

Members of Council and the community are invited to review the City's live interactive summary of ARPA projects on the City's website at www.scrantonpa.gov/arpa/arpa-data/ .

Funding obligations were previously approved by City Council in May 2022. Revised funding obligations were approved in October 2023.

Project Description	The City has awarded subrecipient grant funds to SACF to be used to identify, support, and place individuals negatively affected by the COVID-19 public health emergency, primarily from disadvantaged communities in the City of Scranton, into self-sustaining jobs through career-focused education/training programs and/or post-secondary education pathways. The name of the program is NEPA Thrives.
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	2 Imp Low or moderate income HHs or populations
Secondary Impacted and/or Disproportionately Impacted populations	14 Dis Imp Low income HHs and populations
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	This project is managed by the NEPA Thrives Manager and participants will be guided by a Navigator(s) who will work closely with community-based programs to find the most likely pathway to economic mobility for each participant, while providing wrap-around services such as childcare, transportation, training stipends, and housing assistance, all

	of which will support the participant in achieving the programs overall goal which is greater economic mobility.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	To ensure reasonableness and proportionality, SACF was required to submit a detailed program application and budget for city review and approval. Nearly all of the city of Scranton qualifies as "impacted" when assessing income values using an average household size of 3, so this program is designed to benefit all residents.

What Impacted and/or Disproportionally Impacted population does this project primarily serve?	14 Dis Imp Low income HHs and populations
Secondary Impacted and/or Disproportionately Impacted populations	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	According to the Final Rule, investments in neighborhood features, such as recreation facilities, can work to improve physical and mental health outcomes. By allowing members of the community access to such a feature, this can, as seen previously, reduce levels of mortality and illness and lead to increased well-being. Increased physical activity plays a large role in positive health outcomes, as sedentary lifestyles lead to increased risk of chronic diseases and more severe COVID-19 outcomes.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	To ensure the project was reasonable and proportional, the city drafted a written justification where 2 alternatives were analyzed. The proposed project was determined to be the most beneficial and economical.

Project Description	The city is offering childcare service provider wage boost grant funding through SACF (Subrecipient) to support operational and licensed childcare service providers located within impacted and disproportionately impacted areas within the city. Treasury agrees that challenges accessing or affording childcare have been widespread during the pandemic, affecting many jurisdictions and populations across the country. Disruptions to early care and childcare services similarly have had broad impacts and result in negative impacts for both young children and their parents. This program is designed to assist eligible childcare service providers with funding to help bolster, support, and preserve their existing programs in the form of a wage boost grant. This grant will allow these service providers to help retain or hire new employees at competitive rates to meet the demands the pandemic has created on the residents within Scranton.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The objective of this program is to create safe and healthy schoolyards for schools located in QCT areas throughout the city. These areas are used by not only the school district, but also the QCT community as public recreation and play areas. The final rule recognizes that the public health impacts of the pandemic are broader than just the COVID-19 disease itself and include substantial impacts on mental health and public safety challenges correlated with the neighborhoods-built environment.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	TPL has already identified three schools in QCT areas that are in need of repairs or improvements to their schoolyards. TPL will competitively bid and procure the design and construction scopes to ensure the costs are reasonable. A capped amount of $500k has been determined to be proportional based of historical pricing of doing an upgrade on one of TPLs pilot schools.

Project Description	The project aims to address the current state of disrepair of the pool and bathhouse, originally built in the 1960s, through comprehensive construction efforts. This initiative seeks to enhance safety, functionality, and accessibility for the

	community, particularly benefiting children from low-income families located in a QCT area who rely on the facility for recreational activities
Does this project include a capital expenditure?	Yes
What is the Total expected capital expenditure, including pre-development costs, if applicable	$3,570,000.00
Type of capital expenditures, based on the following enumerated uses	Parks, green spaces, recreational facilities, sidewalks
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Recreational and park use during the COVID-19 pandemic declined among lower-income individuals in the city. Encouraging physical activity plays a role in health outcomes, as a sedentary lifestyle is a risk factor for chronic diseases and more severe COVID-19 outcomes. The objective of this pool replacement is to enrich the community of Weston by improving quality of life and promoting safety by providing a safe and accessible recreational facility open for community members to use.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	This project underwent a written justification analysis to ensure it is both reasonable and proportional to the harm experience. The analysis compared 2 other alternatives and found this project to be the most economical and effective.

Project Description	Funding will be used for a small rehabilitation project designed to support small businesses located in a QCT area in the heart of Scranton. The project will target an alleyway that is directly adjacent to various small independent small business that depend on foot traffic through the area. The project will be designed to support economic development for disproportionately impacted small businesses in this area by transforming the alleyway into a safe outdoor pedestrian space that can be utilized by local business. The improvements will also include traffic calming measures to ensure pedestrian safety in the alleyway
Does this project include a capital expenditure?	Yes
What is the Total expected capital expenditure, including	

pre-development costs, if applicable	$75,000.00
Type of capital expenditures, based on the following enumerated uses	Rehabilitations, renovation, remediation, cleanup, or conversions
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	21 Dis Imp SBs operating in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The objectives of this project are to create an outdoor space for dining and a safe pedestrian walkway in the city, create a space that can support and encourage traffic to local businesses that can host outdoor events, and increase safe pedestrian foot traffic through this area. Treasury has already defined SB's operating in QCT areas as disproportionately impacted.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The project planning and funding has been capped at $75,000 but will support multiple small businesses in the area, as well as residents that travel through this alley way. This amount is reasonable given the number of Small Business and residents that will benefit from the improvements.

Project Description	Using the final rule methodology scripted by the Final Rule, the city has identified local arts orgranizations as other impacted entities within the city. Specifically, their impact was a loss of employees. The city is making competitive beneficiary grant awards available to local arts organizations that are eligible and apply, with award amounts determined on their ability to provide proof of loss of employees during the pandemic. The grant awards are intended to help them either retain and/or hire new employees to recover from these impacts.
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	13 Imp Industry outside the travel tourism or hospitality sectors specify

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The city has recognized the local arts community as a population or group that has been significantly impacted by the pandemic and is need of economic recovery support. As such, an “other impacted entity” analysis was conducted and the results of that analysis concluded that organizations operating under the NAICS codes within the city meet the requirements for this classification (see memo to the city dated January 29th, 2024)
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	After confirming these organizations are impacted according to the analysis, applications were reviewed for eligibility according to the following activities and responsibilities.
If aid is provided to industries other than travel, tourism, and hospitality, please describe if the industry experienced at least 8 percent employment loss from pre-pandemic levels, or the industry is experiencing comparable or worse economic impacts as the national tourism, travel, and hospitality industries as of the date of the Final Rule, and rationale for providing aide to the industry	The analysis began using the assumption that a decrease in total wages would be a fair and reasonable economic indicator of a loss in employment, and thus, this metric and trendline was utilized for comparison of each of the NAICS codes identified above, according to the 8% marker identified by Treasury (See Attachment 1). Upon review, it was determined that the following industries meet this requirement for being designated as an “Other Impacted Entity”: • 711510 Independent Artists, Writers, and Performers • 711110 Theater Companies and Dinner Theaters • 711130 Musical Groups and Artists • 711120 Dance Companies

Project Description	The funding for this program will be utilized to first conduct and economic and impact study analysis of North Scranton, specifically census tracts 1006, 1008, and 1009. North Scranton census tracts have not been identified as QCT areas in the past, however, the SRA believes that this is due to underreporting and that, in fact, this area qualifies as a QCT area. Following the completion of the study and analysis, if the area is determined to be disproportionately impacted or qualifies as a QCT, the SRA will then use funding to acquire vacant or abandoned property to convert to affordable "workforce" housing. The housing units, once completed, will be income restricted for residents who qualify as at, or below 65%AMI and will be deed restricted in perpetuity. Additionally, the core tenants of the city's HOME ARP program will apply.

Total Cumulative Obligations	$2,444,754.54
Total Cumulative Expenditures	$1,960,986.91
Current Period Obligations	$473,898.92
Current Period Expenditures	$1,667,519.72
Brief description of the natural disaster that has occurred or will occur	In response to the Sep 9th, 2023 Flooding Event, the City will be undertaking flooding repair and resiliency projects at Lindy Creek which will repair damaged infrastructure while also lessening or averting future flooding impacts in this area. According to the 2023 Interim Final Rule, “mitigation activities may be stand-alone projects that reduce or eliminate the potential impacts of the threat of natural disaster and may also be incorporated into repair or reconstruction projects that address the impacts of a natural disaster.”
Brief description of how emergency relief is related and responsibly proportional to the natural disaster that has occurred or will occur	he emergency relief efforts at Lindy Creek are directly tied to the natural disaster declared on September 9th, 2023, when severe storms and flooding significantly impacted Lackawanna County, particularly the City of Scranton and surrounding areas. The state of emergency facilitated the coordination of response activities to address the immediate effects of the flooding, which included extensive damage to infrastructure and homes. In response to this urgent need, the City’s proposed flooding repair and resiliency projects at Lindy Creek aim to repair the damaged infrastructure while also implementing measures to mitigate future flooding risks. This dual approach not only addresses the immediate consequences of the disaster but also enhances long-term resilience against similar events. According to the 2023 Interim Final Rule, such mitigation activities are essential as they serve to reduce or eliminate the threats posed by natural disasters. Therefore, the planned projects are both a

	responsible and proportional response to the flooding disaster, aligning with the overarching goal of protecting the community and its infrastructure from future hazards.
Does this project include a capital expenditure?	Yes
What is the Total expected capital expenditure, including pre-development costs, if applicable	$1,644,950.00
Capital Expenditure Justification	The Lindy Creek Project qualifies under the ARPA Expenditure category 8.12 due to its focus on essential infrastructure improvements aimed at enhancing environmental resilience and public safety. The proposed enhancements encompass a range of activities, including cleaning, labor, excavation, and restoration efforts, such as bridge restoration and streambank restoration. These activities are crucial for mitigating the impacts of erosion and flooding, which have become increasingly prevalent due to climate change. Additionally, the project aims to conduct channel repairs and debris removal to ensure the waterway's functionality and accessibility, thereby promoting a healthier ecosystem and reducing the risk of property damage in the surrounding areas. By addressing these critical infrastructure needs, the Lindy Creek Project not only contributes to the immediate improvement of the local environment but also supports long-term sustainability and resilience for the community.

Description	Funding for Community-Based Cancer Screening Navigation Program is uniquely poised to help close gaps in live-saving cancer screenings among those most negatively impacted by the Covid-19 pandemic. Among the many broad and widespread impacts of the COVID-19 pandemic on the healthcare system, of utmost concern has been disruptions in cancer screenings. Studies from the National Cancer Institute and others indicate postponed and canceled cancer screenings and delayed treatments will result in excess of 10,000 cancer-related deaths over the next decade. Rates of cancer screening plummeted during the initial shutdown when many healthcare services were suspended due to COVID-19 and continue to fluctuate and remain below pre pandemic rates.

Description	This funding will allow Child Hunger Outreach partners to expand our current programs; in-school pantries, weekend backpack program, pop ups, and community collaborations on a massive scale. Per Feeding America, there are 7,870 food insecure children in Lackawanna County. Knowing that the majority of those children are located in Scranton gives us data we need to make long term, sustainable plans to eliminate hunger. Food assistance for impacted households is an eligible use. The entire city of Scranton meets Treasury's definition of "impacted" when comparing income for household size of 3 to 300% of the FPG.

Description	The funding will be used to support salaries/wages of our staff, and to address the high cost of operations such as repairs, maintenance, and regular supplies needed so we can continue to run safe COVID free programs for the JCC Early Learning center. These funds will allow us to keep the cost of childcare from rising so that we can help many more families in need. Additionally, we would use the funds so that we may create a more regular schedule for in-depth cleaning (beyond the basics we do daily). This is an eligible use under expenditure category 2.11 (and 2.14)

	WellKind provides Pre-K education, full day childcare and early learning opportunities for infant through preschool aged children. These grant funds will be used to expand

Description	educational opportunities and services to our WellKind families. We have observed the toll the pandemic has had particularity on the health and wellness of our families. These funds will allow us to support the emotional impact and wellbeing of our students and families since the pandemic. With these funds we will expend approximately $500 per child to provide them with a variety of hands-on enrichment activities allowing their creativity and emotional development to flourish, areas which were severely absent during the Covid-19 pandemic. Description	The funding for this program will be utilized to first conduct and economic and impact study analysis of North Scranton, specifically census tracts 1006, 1008, and 1009. North Scranton census tracts have not been identified as QCT areas in the past, however, the SRA believes that this is due to underreporting and that, in fact, this area qualifies as a QCT area. Following the completion of the study and analysis, if the area is determined to be disproportionately impacted or qualifies as a QCT, the SRA will then use funding to acquire vacant or abandoned property to convert to affordable "workforce" housing. The housing units, once completed, will be income restricted for residents who qualify as at, or below 65%AMI.
